PROFILE

Full-Stack JavaScript Developer with 4+ years of experience building scalable web applications using React, Next.js, Vue.js, Node.js, and modern databases (SQL & NoSQL). Skilled in designing, developing, testing, and deploying applications with a strong focus on clean code and performance optimization. Experienced in API development/integration and automation testing. Passionate about continuous learning and delivering high-quality solutions.

EXPERIENCE

02/2025 — **Innovio Web Consulting - London, UK**
Present — **Full Stack Developer**

- Developing modern web applications using React, Next.js, React Native, Vue.js, Angular.
- Designing and consuming REST and GraphQL APIs for high-performance, scalable applications.
- Building backend services with Node.js, Express.js, Nest.js and managing SSR projects for SEO and performance.
- Conducting testing and debugging to ensure system stability and scalability.

01/2024 — **Freelance - (Remote)**
01/2025 — **Web Developer**

- Designed, developed, and maintained websites and mobile applications using Next.js, Node.js, Laravel with MySQL, PostgreSQL, MongoDB, Firebase.
- Collaborated with international clients on UI/UX design, SEO, marketing strategies, and content optimization.
- Delivered consulting services in performance optimization, data analytics, cybersecurity, and digital transformation.
- Built custom animations and interactive designs to enhance engagement and user experience.

06/2021 — **Kimicom Group - Bitola, Macedonia**
12/2023 — **Front-End Developer**

- Built and maintained responsive web apps (React, Next.js, Vue.js, Angular) and cross-platform mobile apps (Flutter) using a Laravel/PHP backend with MySQL & Firebase.
- Developed and integrated RESTful APIs; worked with MySQL, MS SQL, MongoDB, Firebase for relational & NoSQL solutions.
- Implemented GraphQL API integrations for real-time, data-intensive applications.
- Implemented testing & QA workflows (unit, manual, automation with Cypress/Jest) to improve reliability and user experience.
- Collaborated with designers and cross-functional teams to transform wireframes into performant, user-friendly interfaces.
- Assisted in website migrations, performance optimization, and deployment, ensuring smooth delivery of updates.
- Actively contributed to knowledge sharing & agile processes (Git, Jira, Trello), fostering collaboration and code quality.
- Contributed to the planning and execution of website enhancements and updates
- Actively participated in team meetings and shared knowledge to foster a collaborative work environment

EDUCATION

Faculty of Information and Communication Technologies - UKLO
2014 - 2021| Computer Science and Communications Engineering

SOTU Gjorgji Naumov
2010 - 2014 | Technician for Computer Science and Automatics

CERTIFICATES

Codecademy.com (2019-2021) - Full Web Development Path + PHP
Udemy (2022-2024) - 5+ Certificates for JavaScript, React, Next.js, Angular, Vue.js

COMPUTER SKILLS

- **Front-End:** React.js, Next.js, Vue.js, Nuxt.js, Angular, TailwindCSS, Material UI, HTML, CSS, JavaScript, TypeScript
- **Back-End Technologies:** Node.js, Express.js, Nest.js PHP (Laravel, CodeIgniter) – used in past projects, not primary focus lately.
- **Databases:** MySQL, PostgreSQL, MongoDB, Firebase
- **APIs & Data:** RESTful APIs, GraphQL, Postman
- **Testing & QA:** Cypress, Jest, Mocha, Automation & Manual Testing
- **Collaboration & Tools:** Git, GitHub, GitTea, Jira, Trello, Asana, Agile/Scrum practices
- **Additional Knowledge:** C++ (academic & applied experience), C# (basic)

KEY SKILLS

- Problem solving
- Teamwork
- Effective Communication
- Organizational Skills
- Time Management
- Precision in coding, testing and writing documentation, familiarity with principles for manual and automation testing
